

Technical Data Feedy

V1.001 / EN (3rd of October 2019)

Device Specification

| | |
|-----------------------------|--|
| dimensions device | (lwxhxh) 1157mm x 440mm x 450mm, see dimension sheet |
| electrical cabinet | 500mm x 500mm x 300mm |
| work area | see dimension sheet |
| bunker capacity | 14 litres |
| power supply | 1x 230V AC |
| power consumption | approx. 1.2kW |
| maximum feeding rate | 40 parts/min. |
| compressed air | 5 bar, dry and filtered air, push-in fitting for hose (6mm outside diameter) |
| communication | 8 digital I/O's |
| weight | approx. 50kg |

Range of Applications

| | |
|-------------------------|---|
| parts dimensions | edge length from 3mm to 50mm |
| part weight | max. 30g |
| thinnest zones | protruding form elements (thin ribs) \geq 0.3mm |
| material | metal, plastic, rubber, wood, glass (stable) |
| condition | dry, clean, unmixed, no foreign parts, non-magnetized, free-flowing |
